

Wakefield Has 2 Big Dates

Wakefield High will be trying to snap out of its doldrums this week when the Warriors invite Herndon over tomorrow evening and invade Richard Montgomery on Friday night.

Coach Robbie Robinson's lads, all of them juniors or sophomores, have been batted about with flu and injuries for several weeks now and the Warriors have found themselves to be in poor shape for any type of competition as a result of it, but the Wakefield boys still have a good chance of making a late season come-back.

Against Mt. Vernon High last Friday night the Warriors didn't look like an easily licked ball club despite the 55-53 heart-breaking

loss the local lads took home. Robinson's boys played hard in the closing moments even when defeat seemed all but inevitable and Wakefield could have taken the battle had the breaks gone the other way.

Robinson isn't disgusted with his boys—he likes them as a team, although he doesn't point out any particular lad as being his star. His squad is losing ball games recently because of the flu epidemic, but his boys are expected to start hitting their winning stride once more no later than next week. The Warriors could take both contests this week although the Wakefield team is not functioning in mid-season form.
